

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The registry agent before whom any such affidavits are made must carefully preserve the same and deliver them, with the "Check List" and other papers required by this Chapter, to be delivered to the judges of election, as is in this Chapter provided and he must write distinctly opposite to the name of any person to whose qualifications as an elector objections may be thus made, the words to be challenged" or words to that effect. Any elector whose name has been erroneously cancelled upon such official register shall be re-registered upon making affidavit supported by the affidavit of a freeholder and qualified elector of the district that he has been a continuous

resident of the district since his last previous registration and he is fully qualified to be registered.

Section 1215. During the time intervening between the closing of any registration of electors and the day of the next ensuing election, each registry agent must carefully copy from the official register into suitable books, one for each election precinct within his district, the names of the electors registered for such election precinct, alphabetically arranged (the surname first) entering opposite each name the number it bears on the official register together with words requiring challenges and all other entries therein found opposite the name. Nothing in this act contained shall prevent or prohibit said commission from using said bonds or a portion thereof in payment, in whole or in part of any contractor or contractors who have undertaken the reclamation of said land, but such bonds may be turned over to said contractor or contractors in payment upon said contract at par, in each case said bonds shall only draw interest from the date of delivery.

Section 3544. In case a contract is made by said commission for the reclamation of land payable in cash, the same shall be paid out of fund "A" of said district by an order or warrant drawn by said commission, and signed by its chairman and secretary, upon the State Treasurer, payable only out of said fund "A"; that such payment shall be made upon estimates of the engineer chosen by said commission, Provided, however, that no estimate shall be called for, and no payment made on estimate until such contractor or contractors has or have completed at least two miles of canals or ditches or has or have done such amount of work upon reservoirs or other improvements pertaining to the reclamation of said lands as in the opinion of the commission will be of sufficient value for the purposes intended to warrant the payment thereon; and then such payment shall only call for eighty five per cent of all estimates so made. That it shall be provided in and by all contracts that said commission may enter into for the reclamation of any land that said commission shall retain fifteen per cent of all estimates made by the engineer upon work done under said contracts, until the full and final completion of the contract, and the acceptance of the work by said commission, and upon receipt by said commission of a certificate of said engineer that said work has been fully completed according to the contract, and upon acceptance by said commission of such work as a completion of said contract, and said commission shall then in the form and manner above provided pay to the said contractor or contractors the full amount of said contract price, said commission is hereby given full power and authority to make any such restrictions or provisions in any of said contracts for the better protection of the interests of the State as in its judgment it may be proper; Provided, that all contracts for reclamation must be let in the same manner as other contracts for public works and to the lowest responsible bidder, and it shall be unlawful for said commission to let any contracts for reclamation or improvements under the provisions of this Act to any person in any manner related to any of said commissioners by blood

or marriage or connected with them in a business way, Provided, that all engineers, contractors and employes shall be citizens of the State of Montana, except chief engineer.

Section 3545. Section 3546. Said commission shall have and it is hereby given full power and authority, and it shall be the duty of said commission to fix and determine a certain rate or annual charge against all land benefitted by said work of reclamation, whether the same belongs to the State, or to persons, or corporations, for the purpose of creating a fund for the operation and maintenance of said water ways and ditches and other improvements which said rate shall be fixed in each district by said commission annually, and shall be payable to said commission on the first days of January, and July of each year in equal installments; that said commission is hereby authorized and empowered to make, execute and deliver to any person or persons corporation or corporations, who may own and occupy lands covered by the ditches constructed for the reclamation of lands under this Act, and which can be irrigated therefrom, an instrument in writing, signed by its chairman and secretary, giving and granting to such

person or persons corporation or corporations the indefeasible right to the use of a specified quantity of water to irrigate the lands so owned and occupied by them in said district upon payment to said commission of such sum per acre as in the judgment of said commission shall be reasonable, Provided, however, that if any person feels that the charge set by said commission is exorbitant or unjust, said person or persons shall have the right to appeal to the District Court of the county in which said person resides. Provided that no right to use any quantity of water shall be granted or sold to any person or persons, corporation or corporations, at a price per acre less than the cost per acre of reclaiming adjoining land as reclaimed under the provisions of this act, and the amount of water so sold shall specify the number of acres for which sold, and shall not exceed in quantity per acre the proportion which the whole number of acres of land that can be irrigated by said canal bears to the capacity of the canal at the point where taken out. The said commission shall annually fix the same rate for a continued use of water from said plant by said person or persons, corporation or corporations, for maintenance and improvement, as that fixed by said commission for the use of water for such purposes on land reclaimed under this act. That the maintenance rate for the use of water so fixed by said commission shall not exceed the actual cost of maintaining and operating said system in an economical manner and the cost of necessary improvements, but if during any one year, through unavoidable accident or through any unforeseen cause, any plant or system be injured which requires the outlay of any considerable sum to repair in any district and there is no surplus in the fund into which all said water rates and water sales are paid as hereinafter provided, said commission shall for the next year add the amount thereof to the water rate then fixed for the ensuing year; but in case there are sufficient moneys in the fund hereinafter created to pay for such repairs in such district and leave said fund unimpaired, the same shall be paid out of such fund and not to be added to the next year's water rates. Provided however, that in case there shall not be sufficient money in fund "C" as hereinafter provided in any one year to pay for the actual cost of maintaining and operating said system and the cost of necessary improvements, and such repairs which may become necessary through unavoidable accident or any unforeseen cause the said commission shall issue the usual warrant therefor and it shall be the duty of the Treasurer of said State to endorse upon all said warrants the words "Not paid for want of funds" and to date and sign the same in his official capacity, which said warrants shall be paid in the order of their pre-

sentation to said Treasurer out of the first moneys coming into said fund during the next year.

Section 3547. All moneys derived from a sale of the lands in any district as provided in this act, or from a sale of water, or any profit or income whatever, except moneys belonging to the maintenance fund as hereinafter provided, shall be paid to the secretary of the Arid Land Commission who shall forthwith pay the same to the State Treasurer who shall keep such money from each district in a separate fund with a number corresponding to the number of the district and such fund shall be further designated as fund "B." From this fund shall be paid first the interest on the bonds and registered coupons, and second the principal of all bonds issued against said district.

Section 2. There is hereby added to Article 2, Title 8, Part 3, of the Political Code of the State of Montana Sections 3548, 3549, 3550, 3551, 3552, 3553, 3554, 3555, 3556, 3557, 3558, 3559, 3559a, 3559b, 3559c, 3559d, 3559e, 3559f, as follows:

Such payment shall be made by order drawn by said commission and signed by its chairman and secretary, upon the Treasurer of said State against said fund "C" and payable only out of said fund.

Section 3549. The interest coupons of said bonds shall be paid by the State Treasurer upon presentation thereof, if there is sufficient money in said fund "B" for that purpose.

Section 3550. Should there be an accumulation of money in fund "B" of any district as provided in this act beyond the requirements for the payment of interest on bonds issued against said district prior to the time when the bonds of such district can be paid, then the State Treasurer shall under the direction of said commission invest such surplus money at least once each year in the following securities.

1. In the interest bearing bonds or securities of the State of Montana.

2. In such bond or securities of the several counties of the State as said commission may deem most safe and secure.

3. In bonds of school districts within the State. But for every such investment the State Treasurer must first have the approval, in writing of the Attorney General of the State who shall also pass upon the validity of the securities in which such investment is to be made. No such investment shall be made with the funds of any district after the bonds issued by said district shall have become payable but such investment if already made, shall then be withdrawn and used with other accumulated moneys of said district to redeem outstanding bonds of said district.

Section 3551. It shall be the duty of the Secretary of said commission to make an annual statement of all and singular the accounts of said commission showing in itemized form all moneys received by said commission from all sources, in each instance specifying the source, and what disposition was made of such money, presenting duplicate vouchers therefor, which statement shall be attached as an exhibit to the annual report of said commission as provided for herein.

The sheriff shall give the purchaser the same certificate and deed as upon execution sales, and the same redemption rights shall apply.

Section 3554. Whenever there is a surplus in fund "B" of any particular district after satisfying all claims payable out of said fund, such surplus may, by direction of said commission be transferred by the Treasurer of the State to fund "A" of said district, if needed in that

fund; or if not needed in said fund "A" of said district to fund "A" of any other district where the same may be needed or required to complete the reclamation of said lands in said district.

Section 3555. Said commission shall appropriate all waters necessary for the carrying into effect of this act, in the same manner as appropriations are required to be made in behalf of individuals, save and except that all appropriations shall be made in the name and on behalf of the State of Montana.

4887, 4888, 4889, 4890, 4891, 4892, 4893, 4894, 4895, 4896, 4897, 4898, and 4899 of the Political Code of the State of Montana.

Be it enacted by the Legislative Assembly of the State of Montana:

Section 1. The city council or town council of any incorporated city or town may cause any street, avenue, or alley, or any part thereof, to be graded, paved, curbed, or macadamized, and may cause sidewalks, sewers, gutters or other improvements to be made thereon, upon the same being ordered by a majority of all the members of the Council. The Council shall have charge of the building, maintenance and repairs, of all sidewalks of whatever kind or character, and such work may be done by contract, or by the street commissioner, or other authorized officer of the city or town; provided, however, that any one, or all kinds of sidewalks shall be built and maintained at the cost of the owner of the property in front of which said sidewalk is built, or to be built.

Section 2. The City or Town Council shall have power to require connections from gas-pipes, water-pipes, steam heating-pipes and sewers to the curb line of the adjacent property to be made before the permanent improvement of the streets whereon they are located, and to regulate the making of such connection on the streets already improved, or on unimproved streets, and in case the owners of the property on such streets shall fail to make such connections within the time fixed by the Council, they may cause such connections to be made, and shall assess against the property in front of which said connections are made the entire cost and expense thereof. All assessments levied under the provisions of this Section shall be enforced and collected in the same manner as other special assessments provided for in Article V. of this Chapter, and amendments thereof, and all such assessments shall be a lien against the property.

Section 3. The City or Town Council is authorized to provide by ordinance a system for doing any or all work, in or upon the streets, highways, or public places of the city or town, and for making thereon street improvements and repairs, and for doing any or all work authorized by this Act, and for the payment of the cost and expense thereof. In all cases where any part of the expense of any such improvement, except constructing side-walks, gutters, or making necessary repairing, is to be defrayed by special assessment, the council must first adopt a resolution declaring its intention to make such improvement, and fix a time at which objections to the making of such improvements will be considered.

Section 4. The resolution must designate the boundaries of the dis-

trict to be affected or benefitted by said improvement. Upon adopting such resolution, the Council must give notice of such intention, which notice must be published for five days in a daily Newspaper, or in one issue of a weekly paper, published in the city or town, or posted for five days in three public places in the city or town, or served upon the owners or agents of the property affected. Such notice must describe the improvements so proposed to be made, and state the estimated cost thereof, and designate the time for such hearing, and shall refer to the resolution entered upon the journal of the Council for the description of the boundaries. If at, or before, the time so fixed, written objections to such improvements, signed by the owners or agents of one-half, of the property to be affected or benefitted by said improvements, be filed with the city clerk, the city or town council shall not make such improvements but if objections be not so filed by the owners or agents of one-half of the property to be affected or benefitted, then the council acquires jurisdiction to order the making of the improvements.

Section 5. A sewer system may be established in a town or city, which may be divided into public, district and private, sewers.

Section 6. Public sewers may be established and constructed along the principal courses of drainage, at such times to such extent, of such dimensions and material, and under such regulations as may be provided by ordinance, and there may be constructed such branches for sewers already constructed or to be constructed as may be considered expedient. An appropriation must be made to meet the cost of such public sewers from the general or sewer fund of the city or town.

Section 7. District sewers may be established within the limits of districts to be prescribed by ordinance, and so as to connect with a public sewer or some course of drainage. The Council may cause sewers to be constructed in any district whenever the owners of a majority of the feet frontage of the real estate within that part of the district affected thereby petition therefor, or whenever the council by the vote of a majority of its members decide it is necessary for sanitary purposes; provided, however, that before the Council shall formally require the construction of the improvements mentioned in this section, notice shall be given and opportunity for hearing afforded as provided in Section 4, but after notice the Council, notwithstanding any objection that may be offered, may require the improvement to be made unless the resolution relating thereto be rescinded by the vote of a majority of the members of the Council.

Section 8. The character, dimensions and material, of such sewers

must be prescribed. They may be diminished, enlarged or extended by the Council. Repairs and other incidental expenses of the district sewers must be paid out of the general or sewer fund.

Private sewers connecting with the public and district sewers, shall be constructed under such restrictions and regulations as the Council may prescribe by ordinance, but the city or town must be at no expense in constructing, repairing or cleaning of the same, but the same must be done by the owner.

The city or town Council may construct and maintain bridges across any streams that flow through or penetrate the boundaries of a city or town when the public necessity requires it, and the expense thereof may be paid by special assessment as provided in this Chapter, and amendments thereof, from the sale of bonds or from the general or street fund, or a part thereof, may be paid by any of the above enumerated methods of defraying cost.

Section 11. Whenever it may so elect, the city Council of cities of the first class, may by a vote of two thirds of its members, create a Board of Public Works: Said Board shall consist of three freeholders, not city officials, not more than two of whom shall be of the same political party; they shall be appointed by the mayor and confirmed by the Council.

Section 12. The City Council, shall by ordinance, formulate rules and regulations to govern said Board and fix the salary or compensation of the same, but no amount greater than One Hundred Dollars shall be paid to any member for one month's services. The Board of Public Works so created, may be abolished at any time, upon a vote of two-thirds of all the members of the Council.

Section 13. Whenever it is desired to make a special assessment to defray the cost of obtaining private property for the opening or widening of any street or alley, or for other purposes, or for any of the improvements mentioned in the preceding Section, the city or town Council, shall, by resolution, levy and assess a tax upon such property as they shall determine is specially benefitted thereby, making therein a list thereof, in which shall be described the lot or parcel of land assessed, with the name of the owner thereof, if known, and the amount levied thereon set opposite; such resolution signed by the mayor and clerk shall be kept on file in the office of the city clerk, and a notice signed by the city clerk stating that the resolution levying the special assessment to defray the cost of such improvement is on file in his office, subject to inspection for a period

Section 14. To defray the cost and expense of obtaining private property for the opening or widening of any street, the city or town council shall assess not less than twenty-five per cent. thereof, and any part not to exceed seventy-five per cent thereof, as a special tax against the property, distributing such special tax upon such property in proportion to the benefits and pay the remainder of said cost and expense from the general or street fund of the city or town; provided, however, that if the cost does not exceed Five Hundred Dollars the city or town Council may pay the entire cost from the general or street fund.

To defray the cost and expense of obtaining private property for opening or widening or grading, macadamizing, paving or otherwise improving any alley, excepting the building of a sewer, the city or town council shall assess the entire cost thereof, to the property abutting said alley in proportion to the number of linear feet bordering thereon.

Section 16. To defray, the cost and expense of constructing district sewers, the city or town council shall assess the entire cost of said work against the property which is specially benefitted thereby, in proportion to the linear feet bordering said sewer; provided, however, that when a lot or tract of land situated upon a street or alley corner has been assessed, or is about to be assessed for the cost of sewer construction upon one side thereof, it shall not be assessed at any future time for the entire frontage upon the other street or alley, but shall have deducted therefrom as many linear feet as may have been assessed upon the other side, up to, but not to exceed fifty feet.

Section 17. It is further provided, that when a public or main sewer serves as a district sewer, the city or town council may assess the property bordering said public sewer, either at the time of its construction, or at any future time, for an amount equal to the estimated cost of the district sewer, capable of accommodating said property.

Section 18. Whenever a sewer serves as an outlet for the district or lateral sewers which drain a limited area, but which cannot justly be considered a public sewer benefitting the entire city or town, its cost, or any part thereof may be defrayed by special assessment levied against all the property which it serves as a drain, each lot or parcel of land benefitted thereby to be assessed in the proportion which its area bears to the area of all the territory affected or benefitted thereby, exclusive of streets, alleys and public places. Said levy may be made at the time of the construction of said sewer or at any future time.

Section 19. To defray the cost of grading any street, the city or town council shall assess not less than twenty-five per cent. thereof, and any part not to exceed seventy-five per cent. thereof, as a special tax against the property, which it may determine is specially benefitted thereby, and pay the remainder of said cost and expense from the general or street fund of the city or town.

Section 23. To defray the cost of any improvement not specifically mentioned in this Article, the Council may, by ordinance, establish rules for doing said work, and may assess any part, or the whole cost of said work to the property which it may determine is specifically benefitted thereby.

Section 24. Whenever the Council of any city or town desires to sprinkle the whole or any part of their city or town, as provided in this Chapter, it shall provide by ordinance a method of doing said work, and paying for the same under the following restrictions and regulations.

Section 25. A resolution dividing the whole, or any part of their city or town into sprinkling districts, to be known and designated by number, shall be passed; said resolution shall plainly define the boundaries of the several districts, or enumerate the streets, alleys, and public places or any part thereof, constituting the different districts:

Section 26. When once defined, sprinkling districts shall not be changed during the same calendar year, but may be changed by resolution the following year, or any year thereafter.

Section 27. The sprinkling in the districts so established may be done by contract or by forces employed by the city or town, or by both, in such manner as the Council may elect, and it shall be the duty of said Council, to estimate as near as practicable, the cost of sprinkling in such districts so established, for the season, and before the first Monday in October of each year they shall pass and finally adopt a resolution levying and assessing all the property within the several districts with an amount equal to not less than seventy-five per cent. of the entire cost of said work exclusive of the cost of sprinkling parks and public places.

Section 28. The rate of taxation in each sprinkling district shall be determined by dividing the total cost of sprinkling the same, by the total number of linear feet of property in front of, or bordering which sprinkling has been done, and each lot or parcel of land shall be assessed for as many linear feet as border on any street that has been sprinkled.

Section 29. The resolution levying the assessment to defray the cost of sprinkling, shall contain a list in which shall be described the lot or parcel of land assessed, with the name of the owner thereof, if known, and the amount levied thereon set opposite; such resolution shall be kept on

Section 40. The estimated cost of the preparation of assessment rolls, except the cost of labor performed by an officer or regular employee of the city, shall be considered a part of the cost of all work heretofore enumerated.

Section 41. Any special assessment made and levied to defray the cost

and expense of any of the work enumerated in this Article, together with any per centages imposed for delinquency, and for cost of collection, constitute a lien upon and against the property upon which such assessment is made and levied, from and after the date of the payment of such assessment, which lien shall be enforced by a summary sale of such property, and the execution and delivery of all necessary certificates and deeds therefor, under such regulations as may be prescribed by ordinance, or by an action in any court of competent jurisdiction to foreclose such lien, but any property sold to satisfy such liens shall be subject to redemption within the time and in the manner provided, or that may hereafter be provided by law for the redemption of property sold for taxes.

Section 42. Any mistake in the description of the property or the name of the owner shall not vitiate the liens, unless it is impossible to identify the property from the description.

Section 43. Whenever, by reason of an alleged non-conformity to any law or ordinance, or by reason of any omission or irregularity, any special tax or assessment is either invalid or its validity is questioned, the Council may make all necessary orders and ordinances and may take all necessary steps to correct the same and to re-assess and re-levy the same, including the ordering of work, with the same force and effect as if made at the time provided by law, ordinance or resolution relating thereto; and may re-assess and re-levy the same with the same force and effect as an original levy. Whenever any apportionment or assessment is made and any property is assessed too little or too much, the same may be corrected and re-assessed for such additional error (amount?) as may be proper, or the assessment may be reduced even to the extent of refunding the tax collected. Any special tax upon re-assessment, or re-levy, shall, so far as is practicable, be levied and collected as the same would have been if the first levy had been enforced; and any provisions of any law or ordinance specifying a time when, or order in which acts shall be done in a proceeding which may result in a special tax, shall be taken to be subject to the qualifications of this Act. Any and every ordinance, or part thereof, of any Council heretofore passed in substantial conformity with this Section, is hereby legalized.

Section 44. Whenever the estimated special tax or assessments for any of the improvements mentioned in the preceding Sections, or for the taking of private property for the opening or widening of any street or alley, in the aggregate amount to more than twenty-five per cent. of the last as-

essed value of the property, sought to be assessed, then the Council must provide out of the general fund for the payment of the amount in excess of said twenty-five per cent.

Section 45. The tax, as provided in the preceding Sections of this Article, must, unless otherwise distinctly specified, be paid within thirty days after its levy, to the city treasurer, who must give a receipt therefor, and in case of the non-payment, the treasurer must proceed to collect the same in the same manner as delinquent taxes are collected on other property. If such tax is not paid within said sixty days a penalty of ten per cent. shall be added thereto and collected as a part of the tax.

Section 46. The treasurer must make settlement with the Council for the taxes collected as in other cases.

Section 47. That Sections 4817, 4818, 4819, 4820, 4821, 4822, 4823, 4824, 4825, 4826, 4827, 4828, 4829, 4830, 4880, 4881, 4882, 4883, 4884, 4885, 4886, 4887, 4888, 4889, 4890, 4891, 4892, 4893, 4894, 4895, 4896, 4897, 4898 and 4899 of the Political Code be and the same are hereby, repealed.
